

The A4440 and Ketch Junction enhancement BULLETIN

Friday, 13th June 2014

Dear local resident,

We would like to keep you informed of any works that are due to take place in the near future regarding the Ketch Junction Scheme.

- The footpath around the A38/A44 corner (in front of Begonia Close) has reopened.
- There will not now be a night closure at the end of June as the necessary work was completed during the first closure last weekend.
- A new high-level programme will be issued before the end of June.

Further progress:

- The acoustic fence, once installed will be 35m shorter in length than the present hoarding erected on site, where the bunds overlap. This is primarily due to the existing bund along this section being higher than the fence. By leaving the bund exposed, it will allow WCC to alter the bund to create a much better overlap between the front and rear bunds and enable us to work with our colleagues in the city to enhance the landscaping aspects of the bunded areas once they have been amended.

If you require any further information then please email: wts@worcestershire.gov.uk

Thank you
