He also thanked the existing Parish Councillors and other members of the team who had contributed sterling service to the community throughout the preceding twelve months.

City Cllr. R. Knight reported on complaints in respect of the Multi Use Games Area, and placed on record that a recent survey in Newslink had resulted in just six responses indicating three in support of the facility and three against. It was noted that 99.999% of the residents had made no objections and that the few objectors had not bothered to attend the Parish Meeting even though they had been invited. . It appeared to be acceptable to the community as a whole by the Village Hall Association and therefore it was accepted that the status-quo would prevail.
